

### **PARE Product Description**

PARE and PARE menthol are 84-millimeter cigarettes (sometimes called “shorts,” “regulars” or “kings”) and are made with the same components found in commercial brands of cigarettes such as a filter, cigarette paper and tobacco. PARE and PARE menthol are manufactured in a manner similar to that of a typical cigarette.

*The tobacco in PARE cigarettes is different than the tobacco used in most cigarette brands. PARE cigarettes are made from a tobacco plant that has been altered to contain much lower levels of nicotine than the tobacco used in traditional cigarettes.*

### **VLN Product Description**

VLN and VLN menthol are 84-millimeter cigarettes (sometimes called “shorts,” “regulars” or “kings”) and are made with the same components found in commercial brands of cigarettes such as a filter, cigarette paper and tobacco. VLN and VLN menthol are manufactured in a manner similar to that of a typical cigarette.

*The tobacco in VLN cigarettes is different than the tobacco used in most cigarette brands. VLN cigarettes are made from a tobacco plant that has been altered to contain much lower levels of nicotine than the tobacco used in traditional cigarettes.*
