***TOP OF FRONT PANEL***

**95% LESS NICOTINE\***

Nicotine is an addictive chemical. PARE Cigarettes may help you break that addiction.

\*Compared to the three leading US brands.

***BOTTOM OF FRONT PANEL***

95% less nicotine does not mean a safer cigarette. All cigarettes, including PARE, can cause smoking-related diseases and death.

***BACK OF PACK***

While nicotine creates the urge to smoke, smoking-related disease is caused by other harmful chemicals in cigarettes. Reduced cravings from the very low nicotine in PARE can help you reduce or quit smoking.

***TOP OF FRONT PANEL***

**95% LESS NICOTINE\***

Nicotine is an addictive chemical. The very low nicotine in PARE may help relieve the urge to smoke.

\*Compared to the three leading US brands.

***BOTTOM OF FRONT PANEL***

Very Low Nicotine cigarettes are less addictive, but just as toxic. Your best option is to quit.

***BACK OF PACK***

Nicotine creates the urge to smoke. Studies show that Very Low Nicotine smokers will likely experience less craving for nicotine over time. That can help reduce the number of cigarettes smoked and increase your motivation to quit.
